

WELCOME TO *AccessSuccess*

AccessSuccess offers coaching and organizational consultation to people and businesses that strive for the extraordinary. Through a personalized, professional and collaborative relationship, our dedicated coaches and consultants help individuals and organizations create a future vision, develop competencies, and take effective action toward their desired results.

Our *collaborative and appreciative* model is designed to meet the challenges and complexities that today's organizations and their executives, managers, and team leaders face and to enhance development, performance and productivity for individuals and organizations. This collaborative model helps resolve complex concerns and promotes effective leadership at every level of an organization. Our model has proven especially effective for those who have had little success with other coaching and consulting models.

We believe each person and organization has the potential to be creative, resourceful, and "access success." Our services are tailored to fit the needs and goals of your organization utilizing a variety of formats. Services are offered individually, in teams, and in consultation/training modules.

Dr. Anderson, Dr. Carleton, and Dr. Roberts are three successful women who through their 25-year history of collaboration have successfully created organizations, programs, and projects characterized by innovation, sustainability, profitability, and productive business relationships in the U.S. and abroad. We have experience working with businesses, universities, health care industries and non-profit organizations. We have a reputation for careful planning, being attentive to individual and organizational needs, clarifying visions and goals, building bridges between business strategies and people, recognizing and encouraging talent, and facilitating the development of customized solutions.

Please contact *AccessSuccess* for additional information to get started on the path to seeing the results of your visions and dreams in action.
